11 years learning web development, looking for a challenging remote opportunity.

SKILLS

Frontend JS developer

React.js (Redux, RHF, Formik, MUI, Next.js, React Testing Library, Styled Components) and Angular (RxJS, NG-Mat, Ionic)

Backend JS developer

Node.js using Joi, Jest, Cucumber, Sequelize and NestJS (replacing Express.js) - and git

PROFESSIONAL EXPERIENCE

Digital Nomad, Alex so yes

Sep 2022 – Apr 2023 | Worldwide

Traveling and partially working on my personal blog, learning a lot about software engineering, writing on Twitter (10K), LinkedIn (4K), and my newsletter (1.6K subscribers). 3.7K€ revenue generated selling online courses about freelancing.

Freelance React/NodeJS developer, Beelance (Freelancers platform)

Oct 2021 – Sep 2022 | Brussels, Belgium

Good software development practices focusing on Agile methodology and communication, DDD & TDD.

Provide 5K+ users from 3 countries a way to :

- Unsubscribe from segmented email lists within Node.js and GraphQL API or directly in SendInBlue API (with dual sync)
- Improve by 30% our daily matching rate and filtering with React.js and Next.js + a lot of tests

PHP Teacher, EPSI (Software engineering school)

Sep 2020 – Jan 2022 | Montpellier, France

Teaching basic + advanced PHP & OOP concepts, security, SQL, and Symfony framework in 5 classrooms of 30 students / year.

Front-end lead developer, Codéin (Web agency)

Oct 2018 – Jul 2021 | Montpellier, France

Architecting React 16.8 & Angular 10+ apps from scratch, writing good practices, merge requests validation, training classes.

- High traffic MCQ for electrician accreditations with security and anti-cheating system, very good web performances giving 1K monthly accreditations using Angular, RxJS, NG Material, and API Platform.
- Created a +30K equipment management app for construction workers with various categories and stock rules. Made with React.js using Redux, Formik & Material-UI.
- Increase conversion rate from 1% to 4% optimizing website for SEO and web performance on a highly interactive app with multiple flows from Adobe Campaign to Salesforce dealing with 2K+ daily deep database updates using eZ Platform on PHP.

Web developer, Cubis-Helios Consulting (Web agency)

Nov 2012 – Sep 2017 | Paris, France

Learning Java development and system administration remotely during my studies until I graduated.

- Custom CRM created in 2015 entirely by myself, the software is still used right now using JEE7, JSF, Primefaces and Hibernate with Glassfish. (Multithreaded emailing system, monitoring & error detection)
- Over 30 maintained servers with Debian / CentOS (SSH, Apache HTTPD, Glassfish, IPTables, Docker, MySQL, Tomcat, NGINX)

LANGUAGES

French (Native) • **English (Bilingual)**
